CHRYSLER

Jeep

Working with the Polished Concrete maintenance company has been a pleasure and their work has been 1st rate. John and Tammy Slate are professionals in their work and accommodated every need for our new project of a 10,000 sq. ft. building for Ilderton Conversion and Ilderton Emergency Lighting divisions. After this job was complete, we also decided to strip the epoxy off of our dealership service drive and polish the lanes for a beautiful polished finish.

I highly recommend this company and will be using them in any future needs.
